Administration

Road Safety Audit

22nd – 23rd March 2013

Organized by

**Transportation Engineering Research
Center**

Department of Civil Engineering

College of Engineering Trivandrum

Thiruvananthapuram - 695 016. Kerala

About the organizing institute

The College of Engineering Trivandrum established in 1939, has the unique status of being the premier Engineering College in the Travancore State. It is located 12 km from the city. The department of Civil Engineering is the most prestigious department of this institution. To ensure better roads and road network for the Kerala State, Transportation Engineering Research Center is being set up in Department of Civil Engineering for transfer of technical knowhow.

About the Programme

Road Safety Audit (RSA) is a comprehensive and effective tool for proactively improving the safety performance of a road. It is done during the planning or design stage of road or on existing roads and intersections for identifying and mitigating safety concerns. The objective of this course is to introduce the necessity and procedures involved in road safety audit through practical sessions.

It will be highly useful to all those involved in road safety like practicing engineers, scientists and those from academics.

Resource Persons

The lectures and field audit will be handled by eminent persons in this field.

Course fee

The course fee is Rs.1000/- for participants from Non-Governmental organizations/ academic institutions. The course fee is to be send as

Demand Draft in favour of The Principal, College of Engineering, Trivandrum.

The course is free for those from Government departments and academic institutions.

Who should apply?

Engineers from the field of highway and transportation engineering, and those from academics, research institutions and consultancies.

How to apply

Interested persons may download the registration form from www.cet.ac.in. Registration form duly filled in all respects should reach us on or before 18th of March 2013.
