

No: CE/BLDGS/8587/KKD/2013.

Office of the Chief Engineer
PWD, Buildings,
Thiruvananthapuram
Dated.28.07.2016

CIRCULAR

Rain water harvesting works are mandatory for all Government Buildings and hence provision for providing rainwater harvesting work are being included in the detailed proposals for according technical sanction for all original works. However, it is noticed that, during execution, the provision provided for rainwater harvesting works are diverted and used for other building works. Due to this, rainwater harvesting arrangements are not provided in many Government buildings. Hence, all Superintending Engineers and Executive Engineers of PWD-Buildings wing are hereby directed not to divert the provision for rainwater harvesting in original estimate for other civil works in future.
